

December 2020

**Subject:** Customer Notification of transition to DuPont™ Multibase™ Brand

Dear valued customer,

Please be aware that the range of silicone masterbatches for the thermoplastics industry supplied by Multibase / DuPont will be fully transitioned to DuPont in February 2021 with the new Brand name of MULTIBASE™.

The following ERP-issued documents will reflect this change at that time: Certificate of Analysis (COA), Safety Data Sheet (SDS), Label, Invoice and Delivery Note. The annex attached to this letter gives you an example of COA, SDS, and label as they will appear after February 2021.

Until existing label and packaging inventories are depleted, you may receive both old and new DuPont label formats, potentially in the same shipment. This information is still legally valid and can be accepted as normal. Additionally, certificates of chemical equivalency will be available upon request from your sales representative.

It's important to note that our products are not changing, and all our locations will continue to manufacture the same high-quality products, using the same processes as before.

DuPont values you as a customer and we appreciate your support and your business as we go through this transition. If you have any questions or need further information, please contact your DuPont sales representative.

We look forward to continuing to provide a full line of innovative silicone masterbatches for the thermoplastics industry supported by global expertise, a strong channel, and a brand that builds on the 20 year history of silicone masterbatches for the thermoplastics industry from DuPont.

Sincerely,

A handwritten signature in blue ink that reads "Jacek Madry". The signature is written in a cursive, flowing style.

Jacek Madry  
Global Business Manager, Hytrel®, Multibase™, Vamac®
